EDUCATION

Graduated in Electronics & Electronics Engineering(EEE) 80%
Dr.VRK Womens Engineering and Technology, JNTUH, Hyderabad, Telangana, India.

PROFESSIONAL EXPERIENCE

WINFO Solutions Pvt Ltd.
Dotnet Developer | Hyderabad, Telangana | Oct 2022 – Present

- Developed cloud-native applications and migrations using C#, ASP.NET Core, and Azure Functions, ensuring secure and scalable architectures.
- Created and exposed RESTful APIs integrated with Oracle and SQL Server databases using Entity Framework Core.
- Collaborated with Agile cross-functional teams to ensure timely, high-quality delivery of projects in both development and production support roles.
- Earned multiple accolades, including Client Focus, and Learning Awards, for exceptional contributions and commitment to professional growth

PROJECTS

Project: ORDS to Azure Migration
Client: The Good Guys, Australia (Retail)
Duration: Jan 2024 – June 2025
Role: Dotnet Developer
Description: This is a chain of consumer electronics retail stores in Australia. This is a commerce platform, enhancing user experience and driving business growth. It offers users seamless shopping experience, allowing them to explore products, make secure transactions, order tracking, ensuring smooth operations and customer satisfaction.

- Migrated Oracle REST Data Services (ORDS) to Azure Functions using C# and .NET Core.
- Integrated Azure Functions with Oracle DB using Entity Framework Core.
- Developed and exposed APIs via Azure API Management with authentication, throttling, and logging.
- Collaborated with cross-functional teams in Agile environments.
- Validated API responses using Postman and ensured smooth migration.
- Documented architecture, API specs, and deployment processes

Project: Boomi to Azure Integration
Client: E&S, Australia (Home Retail)
Duration: Mar 2023 – Jan 2024
Role: Dotnet Developer
Description: This retail company specializes in providing a wide range of household products through its nationwide chain of stores and online platform. With a focus on enhancing operational efficiency and modernizing legacy integrations, the company initiated a cloud transformation strategy to migrate existing Boomi integrations to Azure.

- Migrated Dell Boomi workflows to Azure Functions and Logic Apps.
- Re-engineered legacy workflows using C#, .NET Core, and Azure-native services.
- Automated deployments using Bicep templates and Azure DevOps CI/CD.
- Connected Azure Functions with on-premises databases and external APIs securely.
- Published APIs through APIM with rate-limiting and logging policies.
- Monitored flows using Application Insights and handled production support.

Project: Power BI ABAC Dashboard
Client: ICON, Ireland (Healthcare)
Duration: Dec 2022 – Mar 2023
Role: Power BI Developer
Description: Developed Anti-Bribery and Anti-Corruption (ABAC) dashboards in Power BI to monitor and prevent fraudulent transactions related to employee and vendor data across the organization. The dashboards helped business users track compliance and identify suspicious patterns in realtime.

- Developed Anti-Bribery and Anti-Corruption (ABAC) dashboards in Power BI.
- Connected Power BI with Oracle data sources.
- Created KPIs using DAX for fraud detection.
- Implemented Drill Down and Drill Through reports.
- Applied role-level security and performance optimization

CERTIFICATIONS

Power BI Data Analyst Associate, Microsoft – January 2023
